TUMANBAEV TEMURBEK

Software Engineer in Test

- +996 (702)35-12-62 • temurbektumanbaev638@gmail.com • Bishkek, KG

SUMMARY

Highly skilled SDET Engineer with a proven track record in software development and quality assurance. Excels in automation, regression testing, and performance testing using Java. A detail-oriented problem-solver with a passion for staying ahead of industry trends and continuously enhancing knowledge. Thrives in collaborative environments and possesses exceptional communication skills. Ideal candidate to captivate recruiters from the very first words.

EXPERIENCE

Software Engineer in Test

Ortodont Group 📅 02/2023 - 06/2023 📍 Bishkek, KG

In my recent project on backend API automation, I collaborated with a teammate to develop and execute test strategies. We utilized various tools and frameworks for test automation, including Selenium for UI testing.

- Test planning: I collaborated with my teammate to develop a test plan, identify necessary test scenarios, and prioritize API testing.
- Test case development: I contributed to the development of test cases covering various API usage scenarios, including input/output validation, error handling, and security checks.
- Automated test development
- Test execution
- Defect tracking
- Cross-functional collaboration
- Testing methodology improvement

Test Automation Engineer

DevX Karakol 📅 11/2022 - 06/2023 📍 Bishkek, KG

In a past project, I analyzed data, presented insights, and collaborated with colleagues from different departments. I provided data-driven recommendations, ensuring clear and concise communication and reporting throughout the organization.

- Improved performance by 15% through successful project implementation.
- Analyzed data and presented actionable insights, resulting in a 10% reduction in defects.
- Implemented streamlined quality reporting processes, leading to a 20% improvement in communication efficiency.

EDUCATION

Electrical technology

Kyrgyz National Agrarian University
📅 09/2021 - 07/2026 📍 Bishkek, KG

Software Development Engineer in Test

DevX 📅 10/2022 - 07/2023 📍 Bishkek,KG

STRENGTHS

Process Improvement
Implemented quality control procedures resulting in 30% reduction in production errors

Team Collaboration
Coordinate with cross-functional teams to ensure quality standards were met and maintained

Problem Solving
Developed and executed solutions for complex quality issues, resulting in 20% increase in customer satisfaction

SKILLS

Java | Selenium | HTML/CSS | Jenkins

API | GIT | JUnit | TestNG | UI/UX test

Cucumber | MySQL | Maven | GitHub

Linux | Jira | RestAPI | CI/CD | Docker

ACHIEVEMENTS

Successfully Launched New Product Line
Led quality control efforts for new product line resulting in successful launch and positive customer feedback

Enhanced Performance Improvement
Implemented effective strategies to improve performance, resulting in reduced defects and increased productivity.
